

## Mouldings

Mouldings are made to match the quality of Woodway Lattice, and to provide handsome framing for your lattice project. They are available in 8-foot lengths and three different patterns to fit either Heavy Duty or Standard Lattice. Cap mouldings and divider mouldings are available.

### CAP

- 3/4 x 1 1/2" nominal size
- 8' length
- 1/2" x 1/2" inner groove
- **Species:** Western Red Cedar

### HEAVY CAP

- 1 1/2" x 1 1/2" nominal size
- 8' length
- 7/8" x 1/2" inner groove
- **Species:** Western Red Cedar

### HEAVY DIVIDER

- 1 1/2" x 1 1/2" nominal size
- 8' length
- 7/8" x 1/2" inner groove
- **Species:** Western Red Cedar

## About Our Lattice & Screen

Woodway Lattice is our flagship product - the only commercial lattice produced based on the Western Wood Products Association Lath Grading Rules.

Woodway Lattice is opposed-angle stapled for maximum wood-holding contact and the angle is reversed at alternate lath intersections.

Fasteners are set flush or slightly countersunk, parallel to the wood grain and their points do not protrude through the face. In addition, all 4' wide panels are glued along at least four joint lines with industrial adhesive to improve panel integrity and strength.

Fasteners in Clear Grade Cedar, Mahogany, and #1 Treated are glue-coated stainless steel; all other grades use 18 gauge, electro-plated, galvanized, and glue-coated steel fasteners to resist rust and improve holding power.

Woodway strives for durability, style, and craftsmanship that will never have contractors coming back to replace inferior products. Our lattice is the best-selling premium grade lattice in the USA.

### Uncompromising Quality

Our philosophy of putting quality above all else has earned us a nationwide reputation as designers and manufacturers of superior wood products for home and garden applications.

### We are here for you

Our goal is to provide first-class customer service with honesty and integrity. We know you have a choice, and we thank you for choosing Bowers Forest Products!
